

berry basket

BY APRIL ROSENTHAL OF *prairie grass patterns*

One of the very best things about summer is picking fresh berries right from the garden! My kids love to head out in the morning collect a whole basket for some Saturday morning waffles with cream, and my Mama heart is so happy to see them enjoying something I loved to do as a child.

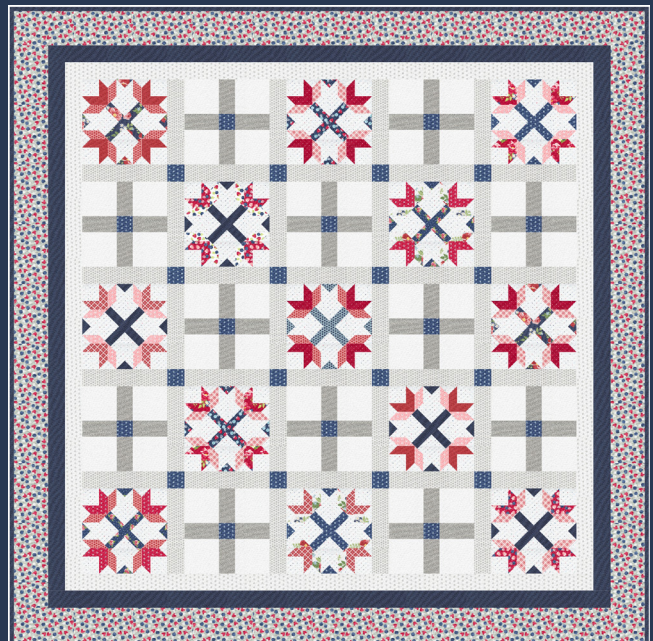

Berry Basket is a collection full of strawberries and blueberries, with all the colors you expect from a mid-summer harvest: blues, reds, and whites. Perfect for picnic quilts, patriotic creations, and a whole lot of fun, this collection is one that will appeal to everyone--just that that perfect berry pie at your 4th of July party.

xoxo April
